Deleting all those post since there no point. Hopefully this time around my family and I actually get our stimulus unlike last time where they said we don't exist. I'm living my venmo in my description in the meantime. Will take this post down as well in 24 hours.

If anyone has questions on what is going of feel free to dm me. Already have said enough about it and deleted the tweets already since this page must stay like it originally is. Thank again everyone for your understanding.
